Mouse Use: Technical Worksheet

Grade 1 · Worksheet · About 25 minutes

Work with pen and paper. Use color pencils if you like. You do not need a computer or the internet.

Name: _____

Grade/Section: _____

Date: _____

> **How to use this worksheet**
>
> - Do the parts **in order** from top to bottom.
> - Each part has a **time** so you know how long to spend.
> - Read every instruction before you write. You can do this on your own.

Part 1 – What you will learn (about 3 minutes)

What you will learn: A **mouse** is a tool you hold in your hand. When you move it, a small arrow called the **pointer** moves on the screen. The buttons on the mouse help you choose things.

Do this:

1. **Name** one place where you have seen a computer mouse.

   _____

2. **Circle** the tool that moves the pointer: Mouse · Banana

Part 2 – What a mouse has (about 5 minutes)

The mouse has a left **button**, a right button, and a little **wheel**. The left button is the one we use most.

> **Real-life scenario:** Lia moves her mouse to the right. The arrow on the screen also goes to the right.

Discuss with a partner or reflect in writing: What happens to the arrow when you move the mouse to the left?

Do this: Circle **Yes** or **No**.

Mouse part	Is it on a mouse?
Button	Yes · No
Wheel	Yes · No
Banana	Yes · No
Wheels of a toy car	Yes · No

Part 3 – Pointer and move (about 5 minutes)

The **pointer** is the little arrow. We move the mouse slowly and gently to guide the pointer.

> **Real-life scenario:** Tom pushes the mouse very fast. The pointer jumps and he cannot find it.

Critical thinking: Why is it better to move the mouse slowly?

Word bank: *Pointer · Button · Mouse*

Do this: Fill in the word that matches.

Clue	Word
The arrow on the screen	_____
The tool you hold in your hand	_____
The part you press	_____

Part 4 – Click (about 5 minutes)

A **click** means pressing a button on the mouse one time. Two quick clicks are a **double click**.

> **Real-life scenario:** Mia clicks on a picture. The picture opens.

Discuss with a partner or reflect in writing: What do you click when you want to choose something?

Do this:

1. **Write** the number of clicks for a double click.

   _____

2. **Circle** the better way to hold a mouse: Gentle hand · Tight fist

Part 5 – My mouse drawing (about 5 minutes)

Do this: Draw a mouse with its two buttons and the pointer on a screen.

Write one rule for using a mouse well.

Part 6 – Check what you learned (about 2 minutes)

Checklist. Put a ✓ in the box when it is true for you.

☐ I know what a **mouse** is.

☐ I know the **pointer** is the arrow on the screen.

☐ I know the mouse has **buttons**.

☐ I know a **click** is pressing a button.

☐ I can hold the mouse gently.

When all boxes are checked, you have reviewed the main ideas from this worksheet.

Worksheet on Mouse Use (Technical). Central topic: Using a mouse. Main technology area: Computers (input devices).
